

Beacon Falls Board of Finance May 14, 2019 Minutes

(Subject to Revision)

May 15, 2019

Mr. Leonard Greene
Town Clerk, Town of Beacon Falls
10 Maple Avenue
Beacon Falls, CT 06403

Dear Mr. Greene:

The **Beacon Falls Board of Finance** will hold a **Monthly MEETING** on Tuesday, May 14, 2019 at **7:00PM** in the Town Library Room.

Board Members Present: Chairman Tom Pratt (TP), Larry Hutvagner (LH), Steve Leeper (SL), Kyle Brennan (KB), Jim Carroll (JC), Marc Bronn(MB)

Board of Selectman: Chris Beilik(CB), Peter Betkoski(PB), Mike Krenesky (MK)

Other Members Present: Mary Ann Holloway(MH), Tax Collector, Natasha Nau(NN) and Erin Schwartz (ES), both from the Finance Department

Others Present: S.Styfco (SS)

1. Call to Order / Pledge of Allegiance, Chairman Tom Pratt, called to order 7:02pm with the pledge of allegiance
2. Public Comment- Chairman Tom Pratt, asked for public comment three times, no public comment
3. **Motion to move on to the tax collector report up to number 3**
KB/SL, all ayes

Tax Collector hands out the report- Suspense listing, and April report
April Report-attached

Discussion of tax report, MVS supplemental includes back taxes, surplus monies, when we start the budget with it, what is collected year to year, this is a summary of the big report
LH: rows 11 and 12, MV Taxes, is that whole 238,551 amount is supplemental?

MH: 238,551 is the budget assessment, water/sewer grand rate book, there is a change in how it is presented, and I'll do another spreadsheet for that, and what is needed?

LH: on this report can you put budget totals and ytd actuals?

MH: That is on there, this is collected, this is budget, current ytd what is left to collect for each one. I can add that to misc. real estate, mv, and another column current collected each month

Suspense Listing:

This is the suspense listing, submitting for your approval general ledger years 12,13,14
\$63,242.95, 4,333.60 total \$67,597.55, real estate do not put up to suspense, the trailer is gone, the original tenant, the money can no longer be collected, take the amount off, I still can collect money what is on the suspense, and will continue to do so. If acceptable sign and date to post this legally without your vote, then submit a copy to the town clerk for the minutes, and file in suspense book, the names and years, to put it on suspense, up to 5 years,

MB: you don't think we will collect this? You think all this is bad debt?

MH: when this is suspense, but it still can be collected

NN: essentially writing off bad debt, uncollectable, but if someone pays, you get it Town Clerk's office will get copy and then we will need to attach that to minutes

Motion for Board of Finance, Chairman Tom Pratt to sign the letter to submit to suspense.

LH/SL, all ayes

LH: are there any tax sales?

MH: there are a couple on the back burner, but not ready yet

4. Discussion and vote to accept 2019-2020 Town proposed budget

TP: Budget to discuss before we vote on it

NN: The drafted budget which is attached, is on the projection screen

LH: revenue question, went to CCM budget workshop, we should talk with revenue first, after the slides, because we made some changes to the revenue,

NN: added in motor vehicle took out revenue for the supplemental, kept proration's in the mil rate calculation,

LH: the supplemental 238, you are reducing it to 185,000, avg collecting 76%

Billable 238, but 76% collection rate, report doesn't show ytd what is collected ytd, Interest earned for the treasurer, but the Income change 140,000, comparing the current, interest rates from last year, went up almost up to from July to Now went up to 20%, Interest rate went up, why is that number going down,

NN: going on the conservative side, trying not to affect the mil rate,

LH: keep that at 150,000, nothing is guaranteed, vs next year to this year, cash flow, state treasurers investment fund is at the end of April was 2.44%

LH: 230,000 prior year taxes collect back taxes once, reducing from 278 to 230,

NN: based on patterns, projections are not entirely what is going to happen

LH: building permits: this year 93,000, estimate at 135,000, going down to 125,000, is there a trend in town. Jim, Chatfield Farm, are they not going to build more places this year? Charlie Edwards, is he not going to build anything this year? Should that number be higher?

JC: breaking ground every day

NN: there is an outlier-tornado building, 121 to year end, includes a large sum of tornado rebuilds, new building through year end, that 125,000 was tornado building,

LH: record in the minutes we don't want to be charging new taxes when we don't have to

SL: a whole year, you may not see anything this year for Charlie,

NN: revenue graphs-attached, picture of a 5 years, couple years, if there is a desire of this board that is ok under our revenues, to go this route, typically more conservative so we are not in the red.

LH: LOCIP-reduction to 6,289

ES: LoCIP funding goes into unbudgeted grants for non-recurring projects,

LH: in case you haven't budgeted for a capital item, more of an adjusted number

ES: yes that is a source, but we tried to name all the Locip projects but if something comes up, it is in there.

NN: the first two lines in this current draft- 16,537,505, some flexibility, look at the historical numbers,

LH: Get back to the expenses, in this current draft- revisit the teacher retirement, because the appropriation committee, reduced the collection percentage, teacher retirement committee pushed that through, but who knows what will happen between now and then, and need more money for road paving,

NN: says police overtime maybe too low, margin of an increase, but CCM felt confident that the teacher retirement was not on the table

CB: CCM- Senator Logan, 17th District, member of Finance Committee, directly contact, not pushing that teacher retirement forward.

TP: can it still be forced in?

CB: theoretically depends on the Governor, it is not in there but could but the Senate is not behind it.

MB: what is the teacher retirement amount?

TP: 30,000,

MB: maybe need to put this in the budget than not in it

KB: but if we put it in budget, the greenlight, for it

CB: the broad consensus the COG, taking the path that we were, more significant and may be hedging, don't know what middlebury is doing?

LH: middlebury put it in

MB: put it in contingency?

CB: contingency may need a town meeting to vote on it

LH: middlebury put it in to the budget,

NN: roads being part of discussion, there is \$190,000 on revenue, does not show on the debt, opportunities in roads, while we do have the highway materials line, for the operating line of roads

MB: what is our plan on roads?

Street Scan

NN: **distribution of the street scan-** attached for minutes, and filtered report- if we set a budget each year, you can take the list of the roads by priority per sq yard calculation. one list by repair priority, suggest that they are done first, road segments, not by full road- in report, adjusted the plan with the street scan figures, biggest expense, repair what you already have, crack sealing before you do a reclaim, ex. N. Main St, 21.43, set any budget, per sq yard calculation, between Rob and I, are based on \$9.11 per sq yard for preventive maintenance, \$30.11 rehab, mill and pave, and reconstruct, reclaim, \$ 60.11 per sq yard, engineering, police, curbing, sidewalks, 4 ft sidewalks maple, wolfe, division, south circle incorporated side walk estimate, figures include- linear foot number 65 per linear foot, old woodin and curren sewer pipes -62% of the sewers vitrified clay, and iron, on the east side of the town, in the 10 year plan FY2021, sewer grant, most of skokrat before the end of the fiscal year,

TP: that doesn't include sewer, piping repair?

NN: do not have a hard number for the additional costs, ex. Storm water drains, police, piping repair for the piping materials.

LH: 500,000 as a placeholder?

MB: Are we going to finance this?

NN: Note from the Financial Advisor, letter, analysis, bond issue in 3rd year, debt scenario next page, 8 million bond, correlate to the budget as a consideration, bar track shows the existing debt, adding the 8 million bond, all in all, look back at the narrative, bond, band, will not affect our rating, with years of experience,

MB: this is the Board of Selectman issue, but we have to set the policy, what are we proposing?

LH: need to put in routine paving needs budget

CB: effectively, combination of both, during the paving season, money on hand, debt service issue towards the end of the summer that gets us cash on hand, again for the spring 2021.

If we issue the debt late summer/fall this year, we will have all the data needed to get bids out, when we are ready by April

LH: not going to borrow by 2021, see another 500,000 to do more roads paving for this summer, starting this July 1, increase some revenues, mil rate going down, we have some needs, projection goes down, leave the mil rate flat, put in for roads,

TP: 35.77?

TP: not all roads will be done, but Skokrat, Beacon Valley, Railroad ave.

CB: Board of Selectman voted on it yesterday, to transfer the STEAP money, request submitted to OPM, the minutes within 24 hours, to submit, a million dollars in waste treatment fund, that we don't need authorization to move, we can move on

KB: 97.5% collection rate? property tax box- bump up the

NN: 97.5% collection rate,

KB: 4 years, percentage of collection went down by a %, ytd only through April, collection rate up to

LH: that should be up, need to count May through June

JC: I have heard from people because I'm on Board of Finance and BOE, 158,000 don't raise the mil rate, because savings BOE, flat budget, don't come up with an increase

CB: how much extra to roads, if we come back flat for mil rate, without having a negative impact?

MB: are we going to add to roads and contingency?

TP: 30,000 line item, need a town meeting to vote for it to repurpose

KB: if the states making us, set it at

CB: if contingency was at 100,000 in the past

KB: set up to 100,000, we can absorb

CB: we had it then, but we squeezed it below, absorb in Contingency with explanation of Teacher retirement

LH: in this budget we are not using the unassigned not using above 9.25%, raise numbers at zero, put 500,000 for road paving or routine

CB: whatever the number we can add is the one to keep the mil rate at 35.9, we used unassigned in capital fund plan

LH: use the unassigned balance we have 180,000

TP: we used 340,000 in your projection for Skokrat

NN: Skokrat has 4 segments, we maybe short of 100,000 for skokrat completion, total 376,000

KB: part of the expectation is we pay, but we replenish some of the 200,000 to 300,000 FEMA money back, off of street scan adds 396,155 for skokrat rd,

NN: rehab does not have sidewalks or curbing, the challenge is different segments require different attentions, a couple sheets for you guys, deferred maintenance, 2 dollar crack seal, deferred to preventive, that would have been a deduction of 139,000 that would not have been recognized, reclaim 3.3mil, rehab was the largest of our roads, mil and pave number 6.023 mil, reclaiming can be adjusted, pci would change, preventive 908,959.50m total \$10,380,893.80

TP: 75,000 was to railroad ave.

kB: 180 bond, 125, 80, 385 projected, sit to see what it happens, street scan is 396 do we want to add to it?

CB: taking a very conservative approach in this, numbers could come in lower,

ES: wild cards are the sewer storm drains

TP: rob says the storm drains were complete by camera,

NN: Skokrat $\frac{1}{2}$ pvc, $\frac{1}{2}$ petrified clay,

TP: Kyle brought up the point, but we are already know we are going into repair for skokrat, not patching up,

NN: catch basin not included in this data, list of the quantities of the catch basins per street

TP: 440 per catch basins, Rob, labor not included probably material only

CB: assuming we do the work in-house

NN: streets scan is not on Rob's list, mobile home area-

NN: Chatfield is excluded as is state roads, resolve some of these ?, but 10 million figure to repair or reconstruct all the roads, excluding states, or private property roads,

TP: back on track- are we looking to increase

MB: I want to see the mil rate based on contingency, roads, and repairs

NN: at the revenue page, bump up to 100,000, at 16.6, what we are at right now, bumped up to 135 taxes, bumped up to 150, balanced with the expenditures, 21,975,254, we will eat up all the contingency fund this year

KB: police overtime do we want to revisit this

LH: this is your budget, stay within it, BOS and BOF have to tell the depts.. this is your budget for this year, need to tell them to stay within the budget

NN: going with the resident trooper scenario, back fill the position, need to demands ptl, over time is added,

LH: on a position you have to have

NN: advocate to bump up the over time for police total \$47,000

LH: what are we doing this year?

CB: this year is different, full timer retired, etc, net of 55,000 savings

MB: overtime could be managed

NN: 97.5 or 98 collection rate,

MB: full time tax collector

KB: 2/10th difference

LH: extra money in road paving/maintenance, keep the mil the same

ES: chip sealing line is now pavement/maintenance

MK: is there any number that we are waiting from outside parties

CB: days away for the negotiating the police and town hall bargaining units-2.5%, hope of management certainly not to exceed that but there may be some savings,

ES: wage salary adjustments-used for vacation/sick payouts

CB: we did a rough calculation how much in dollars in percentage of wage increase, every half of a percent 9-10,000 increase

ES: factor is social security, benefits, etc

MB: do we have a full load of sand this year?

TP: did he finish buying more sand, does he have revenue left

ES: he does have a full load, he purchased more to get a full load

KB: plus to 180,000 line, we are balanced out right now

NN: current mil rate, 35.90, 21,975,254 revenue, and 21,975,254 expenditure

Motion to approve budget \$21,975,254

7,197,668

MB/JC, all ayes

Discussion

LH: why are we approving the 21 mill, we are approving the town portion not the whole budget?

Amended Motion to approve the budget of 7,197,668

MB/JC, all ayes, no discussion

Capital plan-

NN: matching the 10 year plan to our current year, showing grants, and in separate column, KB: only thing different was the 80,000 for Skokrat, and 80,000 to take down Wolfe Ave house down, 4/30 423 not accounting for projected surplus, 42,000 FEMA money, 510 to 515 in unassigned fund balance, not accounting for FEMA money anticipating 200,000- 300,000, if we get that back, essentially spending only 50 in our fund balance

NN: after the adjustments, it would be more like 30,000

MB: would have to rewrite the town policy

CB: if we need to dip below the 9.25, with Board of Finance concurrence move to replenish,

NN: any adjustments,

LH: what is the number we have to make a motion on

NN: 366,809

Motion to approve \$366,809 in capital plan

LH/SL, all ayes

CB: the Board of Finance votes to set the date, Woodland would not be availability, Thursday May 23rd, Laurel Ledge

Motion to set the public hearing for the Budget, Thursday May 23rd at Laurel Ledge 7pm

KB/JC, all ayes, no discussion

MB: new water fountain ordered?

ES: yes one has been ordered.

KB: I did talk to Cal Brennan about the abatement will cost the same before the controlled burn, or deconstruct, cheaper to burn, but would need a quote to get to the hall away, unless you get a quote for the whole package, bidding would have to happen

SL: with abatement, it would be stripped to the frame

5. How will this be presented Board of Finance, Board of Selectman in attendance, will happen to answer questions?

TP: anything else, I want to compliment all about this, Congratulates outstanding job between Board of Finance and Board of Selectman

JC: Noted and recognized to the record to the detail to Erin and Natasha, outstanding job
Everyone applauded

NN: I want to mention that it will only get better, I was going to display a portal but that will be another meeting

TP: Budget topic, open discussion how it is going to be handled for Thursday meeting, Board of Finance will run it?

CB: Board of Selectman in attendance, happy to assist, with any questions to field, just call on us, we will pitch something in

TP: I will be honest, I have heard, minimum feedback, a lot of positive stuff, address raises, how they came about, on part of address the raises, explain the fire Marshall position, that will be the topics, basically make presentation, there will be 5 minute of speech only, s, non-redundant, electronically Natasha

NN: High level word document format, summary, to explain why and what, within a summary

TP: one or two page hand to review, I do not anticipate, heard a lot of positive; we were all projecting a flat budget and will be surprised what we can do with a flat budget

CB: Comments were there is no way they are coming in with a less than a 2 mil increase, but some people will be more than pleasantly surprised, What we will do, Board of Selectman-copies of budget will be in the town hall, plus additional copies to the public that night, make 50 copies, plus any handouts for that night, may not be enough

NN: we are voting just the budget, then the mil rate later,

CB: Public Hearing, and 7-8 days after, projected meeting for the town budget to vote, 1 date for Budget presentation to the public and the 2nd date for taxpayers to vote to accept the proposed 2019-2020 Town Budget

6. Once the town Budget meeting, is set then Board of Finance and vote for the mil rate
TP: we will have the Board of Finance meeting after the town budget meeting, I'll get an agenda sent in.

7. Approval of Minutes from the Previous Meetings

Monthly meeting 3/27

Monthly meeting 4/9

Budget workshop 4/4

Budget workshop 4/29

Budget workshop 5/7

TP: they have been submitted, you all should have copies, any concerns or corrections at this time.

Motion to accept all minutes as presented

LH/KB, all ayes

8. Correspondence / Payment of Bills

- a. Board of Finance Clerk's Invoices-electronically viewed

Motion to approve and accept clerk invoice for 5/7 workshop meeting,

SL/JC, all ayes

- b. **Other Invoices**-none in our mail

- c. **Other Correspondence**-Natasha, Board of Selectman, and myself, been involved with the state verifying Mahoney Accounting Firm

Receive a report from Tom, attached, of the flows leachate flow, for 3 months, they paid, 19,393.68

CB: anticipation that the payments would be trending towards zero, 4 years ago, renegotiated got an increase per liter for the flow.

MB: who pays that?

CB: out of the Beacon Heights coalition

9. Reports

a. Ambulance Service Report-

TP: dropped down the balance owed 67,613.69, I will be meeting in the next week with one of the representatives to look to take off bad debt, there was a death in the family of the representative we were supposed to meet but will move forward with this

b. Town Treasurer's Report-

Questions or concerns

c. Town Clerk's Report

Fishing season is here, there were no marriage license this month, in total collected \$42,412.51

d. Tax Collector's Report

MB: did we put any revenue for this?

TP: Mary Ann said to hold the line, for 3,000

Finance Manager's Report

Report

ES: the auditors will be here last week of May as their preaudit visit

TP: take a lot of the credit for taking on the grants too, thank you to Natasha,

NN: we are going to pursue bullet proof vest grant, but not going to pursue the tree removal grant, not within their guidelines, David gave us ideas for inlands and wetlands, but the only unfortunate for bullet vests, we can preorder, or prepurchase not allowed to recoup,

TP: good with vests, if I remember correctly

NN: replaced vests plates, replace the whole thing, get money for the pieces, don't necessarily have to order the whole thing, but need to track the age, and replacement or repurpose by body type.

TP: is that going to fall on police and Finance to maintain track of records?

NN: combined effort, working with the fire dept, not included in the report fire assistant grant might be equivalent to EMS, Jamie is looking into this and will get back to me, fire house subs in August, AFG for the larger application, pending in October,

LH: EMPG grant, approved at 100%, radios were purchased, 1,500 for emergency and a \$7000 radio, ultra high band,

NN: as far as we know we don't have dedicated radios, they are multi-functionality,

KB: our radios are all used by fire, police, and public works

LH: the only reason brought up is FEMA 100% reimbursable if you need it

NN: If the Board is up to it for next regular meeting add to agenda to street scan, log into portal,

TP: if that is our plan, we need to educate ourselves, we need to work with the Street Department and for us to know

Anything Else?

10. First Selectman's Report-no budget transfers, table anything new

TP: Last week did we open bids-

CB: three bids- two different low bidders Swan excavating for drainage, and Forest & CO. for road repair, bids came a little bit higher than we were estimating

a. Update on Other Issues

TP: when we come up with bid proposal, is that through the engineering service, how do we come up with the price on this with the engineering process, are we missing something

CB: that is the first time it seems to be the first time to have a difference, but our engineer is on vacation, but when he returns then we will follow up to get an explanation

PB: question

CB: question on bidding, last really big project town engineer, Noe Place, highland ave, and burton rd, estimated 2. Million, and actual was 1.9

TP: we have a lot more projects coming along, was that the only bid that was open?

CB: there were three bidders each project, O&G is on railroad ave, is doing that project, Skokrat project is not out to bid yet

TP: Cotton Hollow, and Lopus Rd, big projects have to get done sooner or later, Natasha brought it up on the 10 year plan.

CB: LOCIP eligible, 50/50 split with Cotton Hollow, and Naugatuck

TP: not in favor of the expansion-I don't think economically a good move, need to find a solution to this, everything is going to Jim Weeds now, is there anyway DEEP, site get approved,

CB: property has to be municipal land; we need to set up a separate agenda to the next meeting with Public works and engineer

TP: I'd like to look into and discuss this to address the need to have a better solution

CB: in the most economical, open to suggestion, lets look in Junes meeting

LH: Peter said you have to have a DEEP approved site to get FEMA to reimburse

TP: not enough land but will bring it up for discussion

KB: can put it there at Wolfe Ave

PB: won't have a house much longer, put it there?

NN: Rob fees charge to the special items, dump permit, not at a competitive level as surrounding towns,

TP: need to pick this up next month, possibilities but maybe not

CB: did some adjustments for partial fees, partial discussion, not advanced, but hasn't increased much

TP: add P&Z to the next meeting, may have to have this Board push this for increases need to revisit, have to think about revenue too

b. Possible Proposed Budget Transfers for June –none

9. Finance Policy Manual-

Asked Jim Carroll to work with Natasha, put together a policy manual, and Larry brought up to set up guidelines to make transfers within departments, set up guidelines but talk about that in the future

CB: that guideline was set up with prior Board of Finance to do budget transfers within the departments

NN: The plan is to start in august, making a formatting budget for FY21, user friendly, using other models

10. New Business. -none

11. Public Comments-

S.Styfco 71 Lasky RD, -so during the budget workshops, conversation was had, about the fire department capital expenditures, you sir being the Chairman of Board of Finance, also the treasurer, you have given thoughts and opinions on these capital expenditures, Mr. Brennan, Communication Director, has given his thoughts and even given his motions. I was shocked by both of you that you haven't recuse yourselves from the motions and conversations, because it was a clear conflict of interest and I want to know what the Board will do to address this so that conflict of interest does not happen in the future.

TP: Thank you very much for your input, are there any more comments, no executive session, an adjournment is in order.

12. Executive Session (If needed) –was not needed

13. Adjournment

Motion to Adjourn 8:58pm

LH/JC, all ayes

Respectfully submitted,

Angela Moffat

Meeting Clerk, Board of Finance

卷之三

To: Board of Finance & Board of Selectmen
From: Natasha Nau, Finance Manager
Cc: Erin Schwarz, Assistant to the Finance Manager
Date: May 13, 2019
Subject: April Monthly Report – Finance Office

GENERAL:

- Training with Erin Schwarz on various tasks continued.
- Submitted our OPM-CCM mandated annual Uniformed Chart of Accounts (UCOA) update for both 2017 & 2018 (adding special funds, which were not done in the past) by 4/30.
- Submitted our CIRMA insurance (LAP/WC/Crime) renewal information; revised WC, vehicle and equipment information for accuracy.
- Gathered all necessary info and photos to draft all Municibid auction ads for our vehicle disposals, requested duplicate titles where necessary, and created newspaper ad pointing to Municibid. Will be live 5/15-5/29 and payments/pick-up should occur 1st week of June.
- We received auditor's engagement letter, sent our notice to OPM & are working on the interim list and sample selection.
- Confirmed Financial Policy Manual is up for its 2-year review/revision as of March 2019. Will work together to complete beginning this August.
- Payroll: researching status of long-term IRS payment issue; completing 941 report before 4/30.
- Bids were opened on 5/8 for Pent Road. \$35k estimate too low. \$50.3K total (being presented at 5/13 BOS meeting).

BUDGET:

- Concluded quote research, finalized expenditures and revised revenue. Final draft to be confirmed at the 5/14 BOF meeting and BOS to schedule public hearing/vote scheduling to occur soon.
- Shopping: was able to get a 12-cent reduction with our current gasoline supplier through consortium negotiation. Equated to about \$1,500 in savings for FY20 total gas. Still awaiting a quote from alarm monitoring and phone line reductions.
- Updated the 3/31 YTD revenue & expenditures to 4/30 in the FY20 budget and provided to boards. Next update will be after 5/31 closes. EE&A and revenues are also attached for reference if desired.
- Continued to develop a 10-year capital plan (infrastructure, fleet, etc.).
- StreetScan data report arriving momentarily; reached out to financial advisors/bond counsel for scenarios for discussion purposes.

GRANTS:

- Submitted EMPG app's for 2016 and 2017 by 4/15/19 deadline; received \$3,026 for 2016 thus far. 2017 award to follow next FY most likely (\$5k +/-).
- Submitted (3) Katharine Matthies app's on 5/1 for total of \$45,493.40 for senior center computer area (\$7k), fire department chest compression device (\$15.3k) and Matthies Park educational/historical signage (\$23.1k).

- Library made us aware that elevator could be paid for by Library State Grant. Notice of intention due by 6/1 and app due 9/1. We are awaiting an elevator repair cost estimate to decide.
- C. Bielik made us aware of an EPA grant for inland/wetlands projects due 5/24 and suggested tree removal in Beacon Valley Rd. wetlands area. Grant eligibility requirements dictate the project must be educational. We will NOT be applying this cycle as there is not enough time but might pursue with Inland Wetlands Administrative and Enforcement Officer next year.
- State FEMA Tornado: worked with Public Works to get tree information. Sent to state for review. Awaiting feedback on what (if anything) we still need to provide and/or suggestions.
- Final requirement to officially revise STEAP award from West Rd. to Beacon Valley Rd. is resolution being voted on in the BOS meeting on 5/13.
- Drafting our BVP grant that is due 5/28 with Police Department. Will be for 1-3 vest (\$2k +/-).
- VFA grant (max \$2,500) due 6/30. Will be working with Fire Department to determine what they wish to apply for.
- Firehouse Subs grant due 8/28. Will be applying for the rescue struts in the FY20 proposed non-recurring capital list.

Pavement Condition Statistics

Pavement Condition Index (PCI)

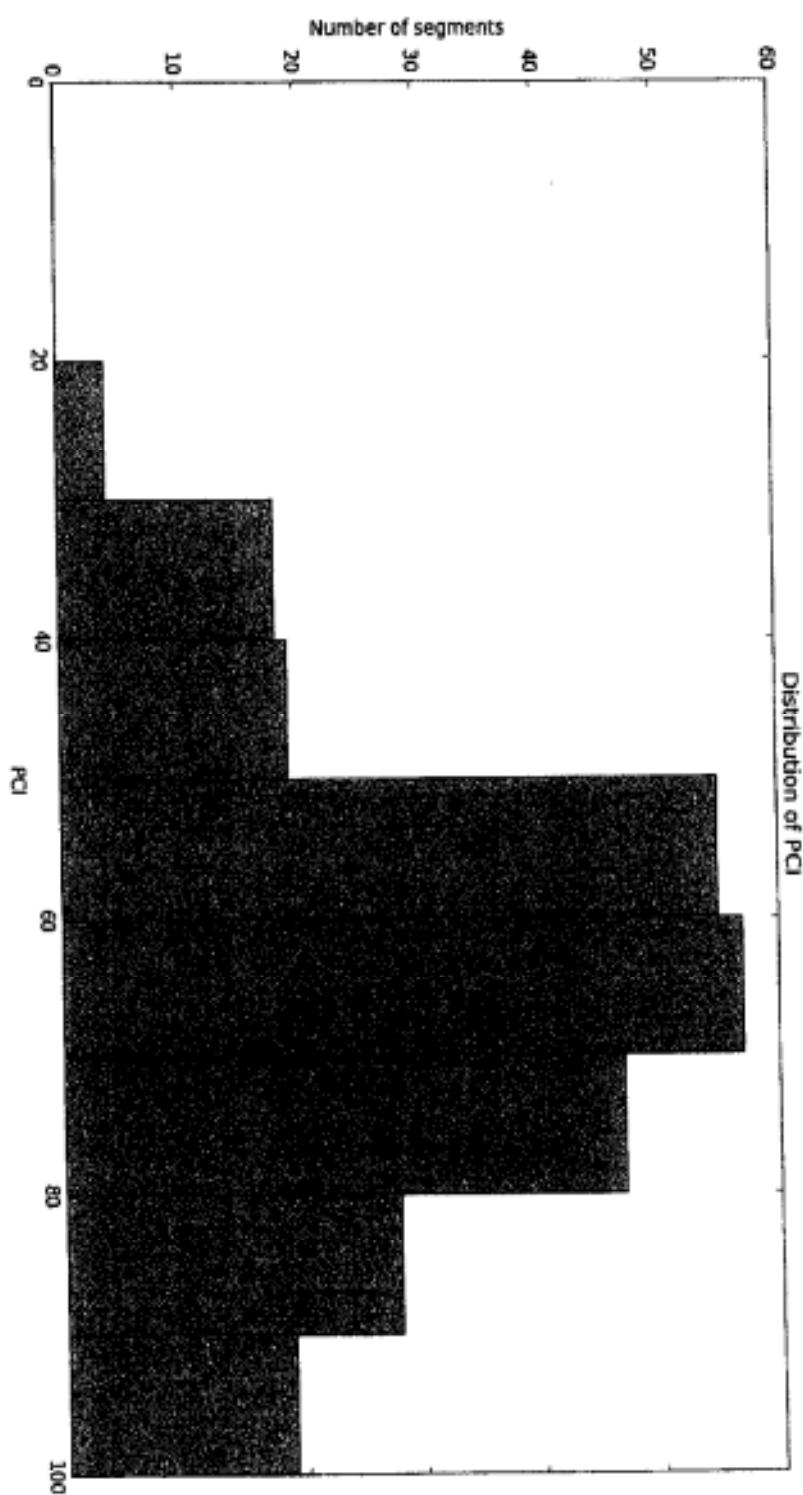

Roads Condition Statistics

PCI Distribution by category

Distribution of Pavement Condition Index

Breakdown by Miles and Number of Segments

Miles	Segments	Miles	Segments	Miles	Segments	Miles	Segments
0	0.1	3.8	6.7	7.2	6.7	3.9	28.4
0	1	21	56	75	66	28	247
0%	0.2%	13.3%	23.8%	25.3%	23.7%	13.7%	100%

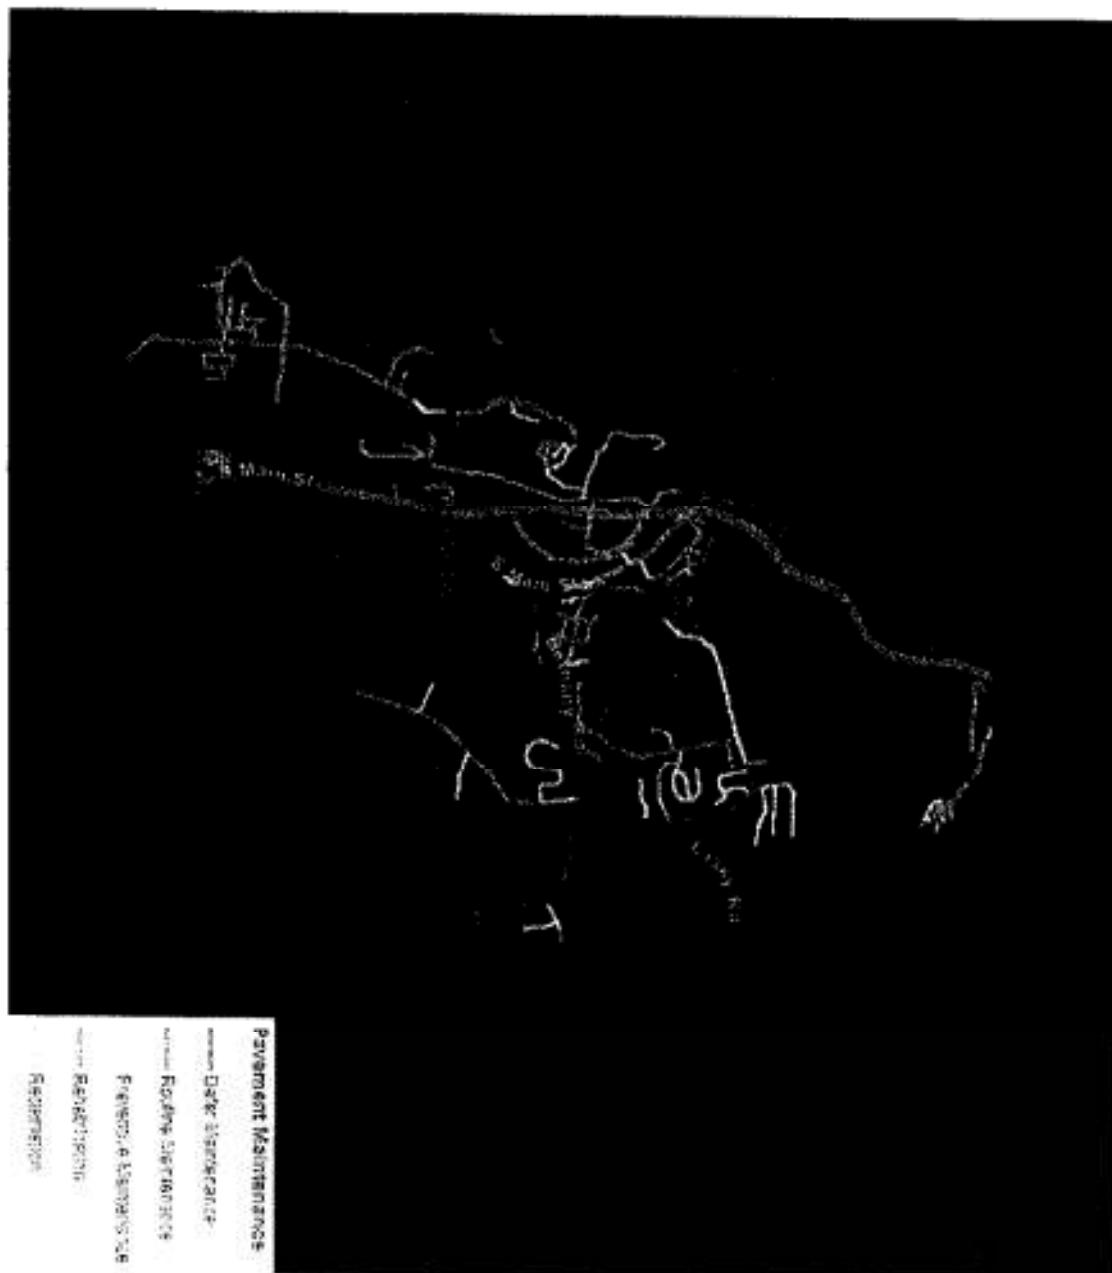

Summary of Findings

- Average PCI for Municipal-owned road is 84.0
- The estimated maintenance backlog is \$10,003,575. This value represents the cost to repair the entire road network at once to an average PCI of 85.

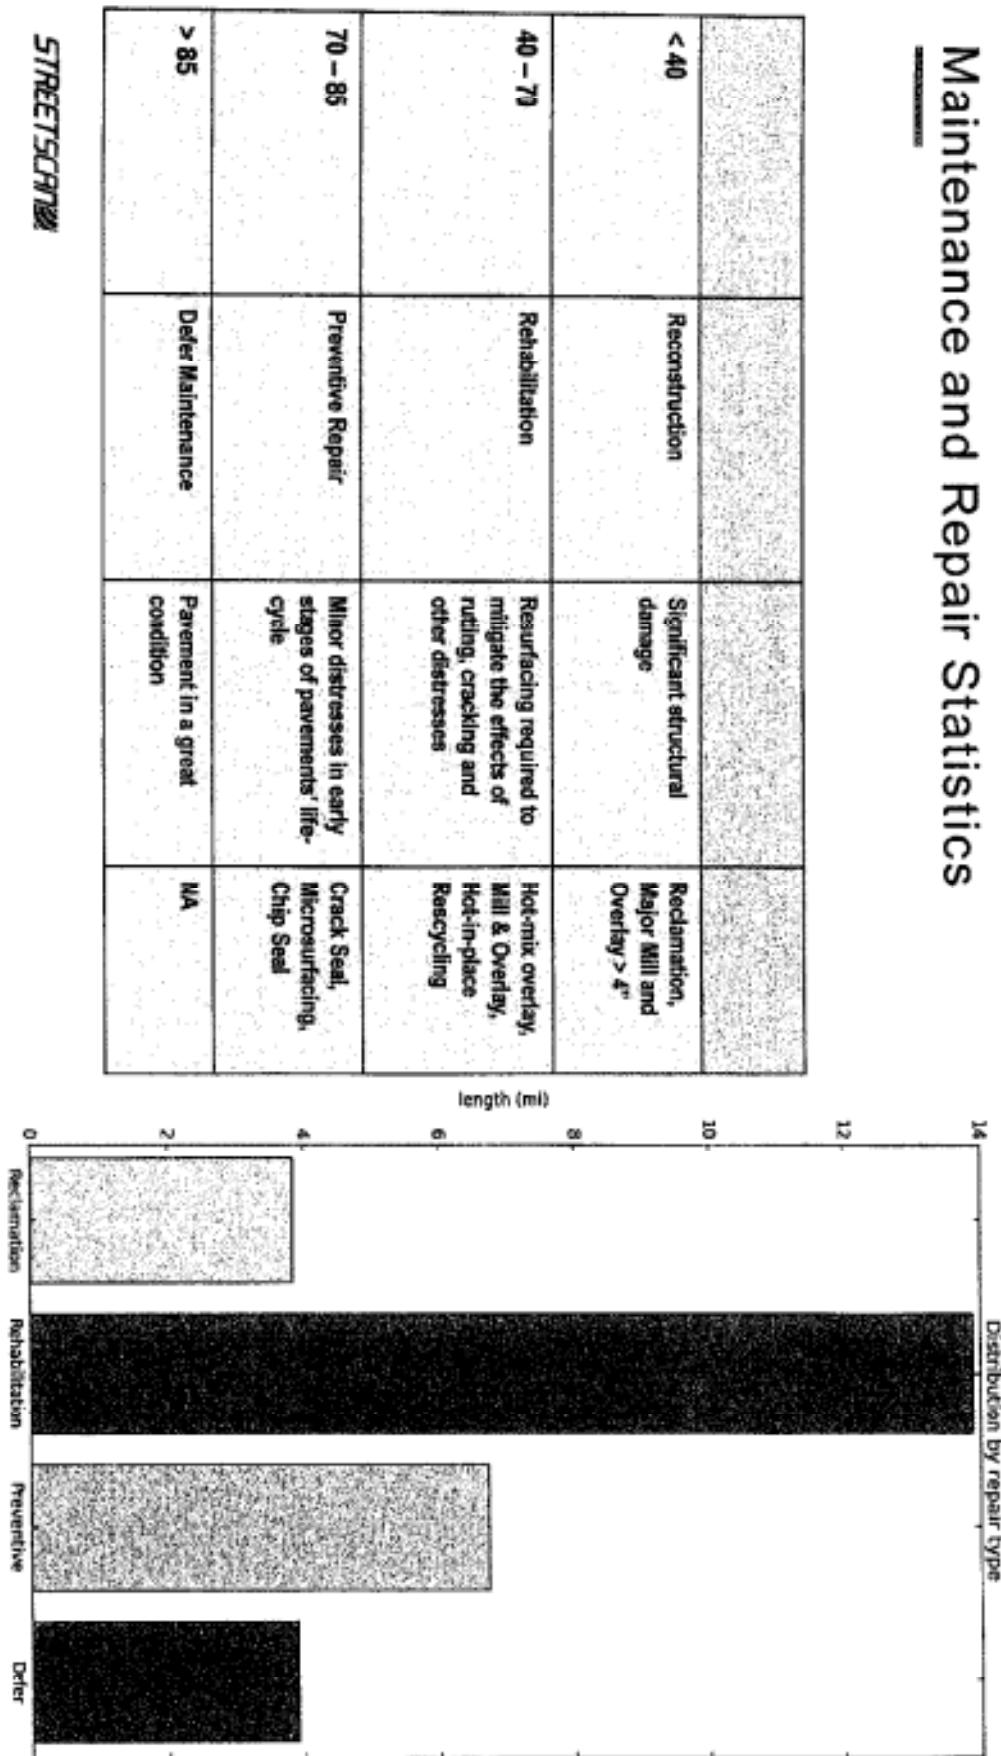

Cost Estimates Used

- Preventive (Crack Seal): \$9.11/sq.yd
- Rehabilitation (Mill & Overlay): \$30.11/sq.yd
- Reclamation (Full-Depth Reconstruction): \$60.11/sq.yd

Pavement Maintenance and Repair

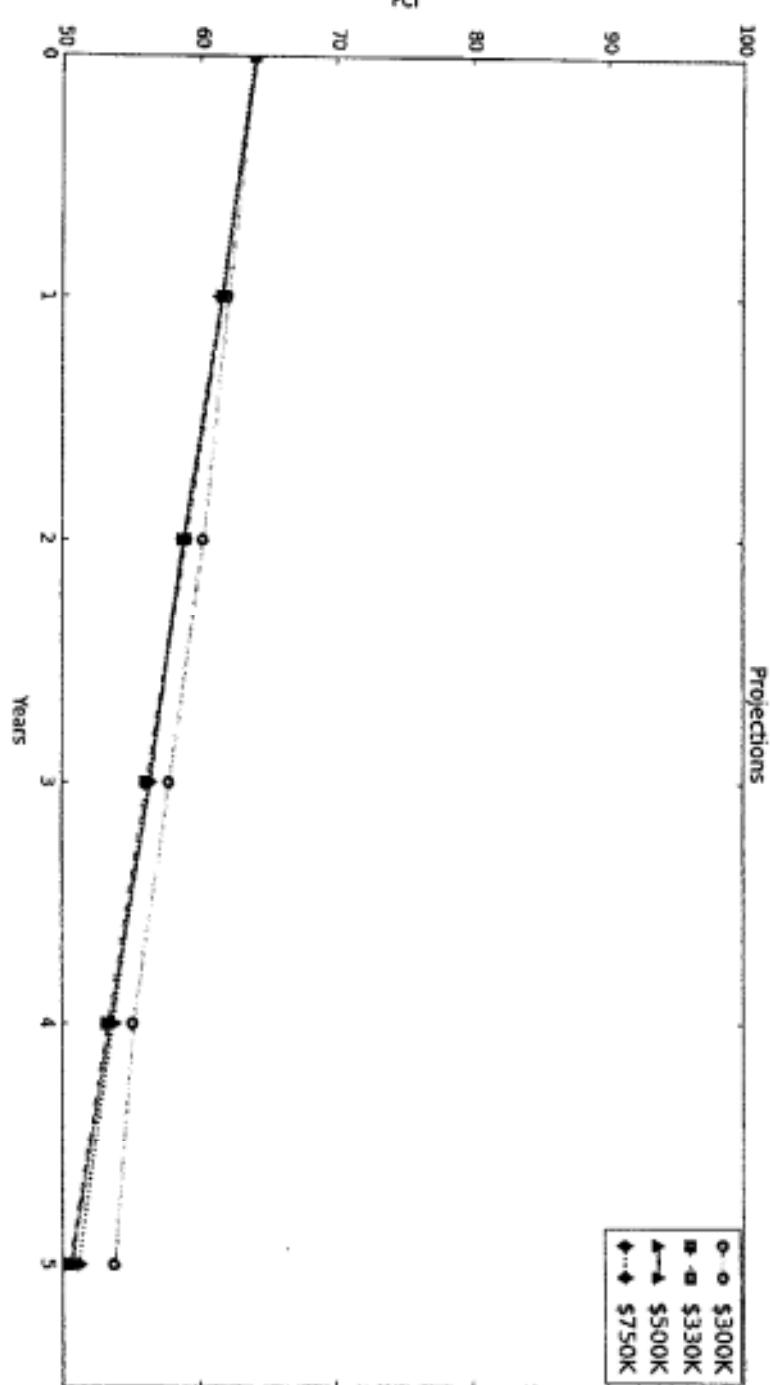

Maintenance and Repair Statistics

Prioritization Factors

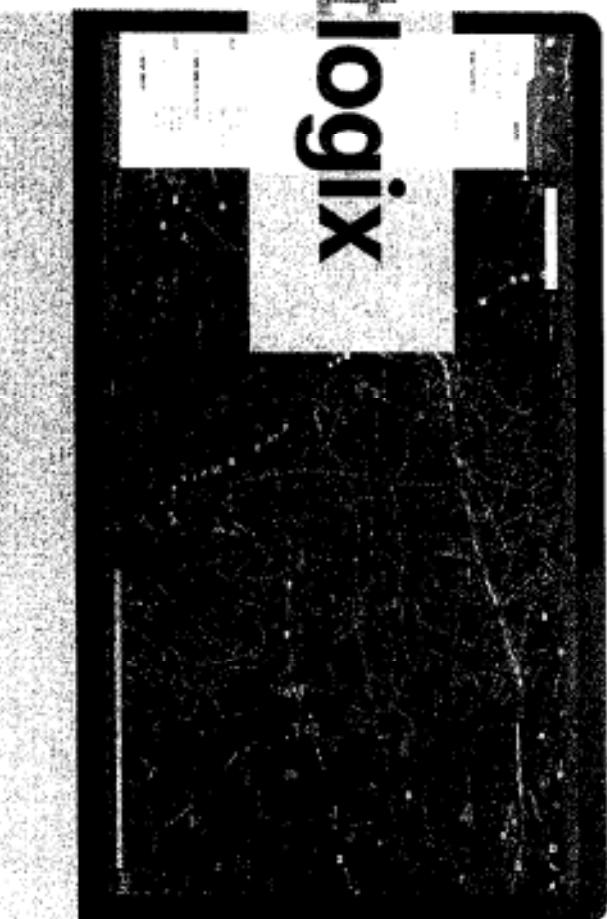

- Functional Class and Traffic
- Condition
- PCI
- Benefit (condition change, life extension) to Cost (repair Cost) Ratio
- Available Budget

Projected Conditions (Avg. PCI)

STREETLOGIX

StreetScan is a Canadian company that provides a wide range of services to help you get in touch with your community. We offer a variety of products and services, including:

- Community Information Services
- Community Outreach Programs
- Community Development Initiatives
- Community Improvement Projects
- Community Education Programs
- Community Health Initiatives
- Community Safety Initiatives
- Community Economic Development Initiatives
- Community Social Services Initiatives
- Community Environmental Initiatives
- Community Cultural Initiatives
- Community Sports Initiatives
- Community Religious Initiatives
- Community Political Initiatives
- Community Business Initiatives
- Community Non-Profit Initiatives
- Community Religious Initiatives
- Community Political Initiatives
- Community Business Initiatives
- Community Non-Profit Initiatives
