RFQ/RFP #20-1**

**SUPERVISORY CONTROL AND DATA ACQUISITION (SCADA)
SERVICES**

ADDENDUM NO. 6

Monday, September 30, 2019

Bid Due Date: 10/7/19 10:00 a.m.

The attention of bidders submitting proposals for the above-referenced project is called to the following addendum to the specifications.

September 25, 2019

Q: There was no specific time that was mentioned as to how many hours of trouble shooting will be needed. Can you please specify amount of time you want us to include for trouble shooting the control and electrical system so we can have a correct total in your sections (Year 1, 2 & 3) therefore providing a correct total for the 5% bid bond.

September 30, 2019

A: The Town estimates it will need no more than eight (8) hours of in-person/on-site troubleshooting time per quarter (or four times per year). In addition, the Town estimates that it will need no more than ten (10) hours of remote/online/phone troubleshooting assistance per year. To conclude, the Town estimates it will need no more than 42 hours per year (or 126 hours for all three years). The potential bidders are encouraged to use the fee proposal sheet to indicate what the per hour charge would be beyond these maximum hours listed.
