To: Lisa Daigle <ldaigle@beaconfallsct.org>

To Whom It May Concern:

We are residents of Beacon Falls, currently living at 6 Timberland Way. As residents, we are opposed to the Hopp Brook development, as it would raise our already very high taxes and put a burden on our school system. The taxes that would be collected by the households in this proposed development will not cover the additional costs of education and town services that need to be provided.

In addition, it would cause further congestion and wear and tear on our already deteriorating roads.

We ask that members of this commission **vote against** the application and permit for the development of Hopp Brook Estates.

Thank you for your time and consideration.

Regards,

Trish & John DiBuduo
