Good morning,

My husband and I are concerned about the increased traffic to the area of Bethany Road, Blackberry Road and Skokorat Road this proposed housing project will bring. We are also concerned about the cost to the town the increased need for emergency services and schools that this would incur.

Another concern is the impact on the town sewage system, as we have already experienced problems in this area.

Thank you,

Eileen and Paul Grammer
12 Hockanum Glen Road
